SUMMARY

Software engineer who ships production platforms for real businesses, not demos. Recent work spans a multi-language tax-filing SaaS (Switzerland/Nigeria), an escrow-backed project management platform, a full-stack real estate marketplace, and a multi-tenant B2B business platform with shared UI components across web, native, and desktop. Comfortable owning a feature end to end — from a Figma file to a production API.

EXPERIENCE

Software Engineer — Finclusion

2026

Built and maintained web applications ranging from landing pages to feature upgrades on existing production systems.

TypeScript, Next.js, React.js, Node.js, NestJS

Frontend Developer — Mindgrid Technologies

2026

Built and maintained web applications ranging from landing pages to feature upgrades on existing production systems.

TypeScript, Next.js, React.js, Node.js

Freelance Software Engineer — Self-employed

2023 — Present

Delivered production platforms end to end for clients across fintech, e-commerce, and real estate, including SabiTrack (B2B project & escrow dashboard), Nicely Polished (full-stack e-commerce storefront), and Spayce (full-stack real estate marketplace, React + NestJS). Translated Figma designs into pixel-accurate UI and integrated REST APIs across every build.

React, Next.js, NestJS, Node.js, TypeScript, Tailwind CSS, Firebase, MongoDB

Software Engineer — SparkStrand

2025

Shipped two production products: TaxDone, a multi-language (EN/DE/FR) tax-filing platform, and VentureDirection, a multi-tenant business platform with shared UI components across web, React Native, and desktop. Partnered directly with design and backend to ship features end to end.

Next.js, React, React Native, NestJS, Tailwind CSS, Medusa, Docker, PostgreSQL

Software Developer — Camie

2025

Built and maintained web applications ranging from landing pages to feature upgrades on existing production systems.

JavaScript, Next.js, React.js, Node.js, TypeScript

Web Developer — Isaac Consolidates

2025

Built and maintained web applications ranging from landing pages to feature upgrades on existing production systems.

JavaScript, Next.js, React.js, Node.js, Python

Frontend Developer (Internship) — HNG

2024

Built a landing web application from Figma designs as part of a fast-paced cohort-based internship program.

React.js, JavaScript, Figma

SELECTED PROJECTS

TaxDone — Full-stack

Multi-language (EN/DE/FR) tax-filing SaaS for Switzerland, expanding into Nigeria. Built the client app and the Nigeria market-entry site. (app.taxdone.ch)

VentureDirection — Frontend

Multi-tenant B2B business platform (CRM, finance, invoicing, time tracking). Built shared UI components used identically across web, React Native, and desktop. (venturedirection.com)

SabiTrack — Frontend

Escrow-backed project management platform. Built the B2B dashboard used for milestone tracking, vendor management, and approvals. (business.sabitrack.com)

Nicely Polished — Full-stack

UK e-commerce storefront for professional nail products — catalog, cart/checkout, multi-currency, loyalty points. (nicelypolished.com)

Spayce — Full-stack

Nigerian real estate marketplace covering sales, rentals, short-lets, and hotel bookings, with KYC/KYB verification. React + Vite, NestJS API. (spayce.ai)
